

## **ENVIRONMENTAL STATEMENT**

All-Coast Forest Products is a family-owned lumber and building material distributor and manufacturer. We service 10 western states and employ approximately 130 people. We are proud of our team of people and the companies with which we do business. We set very high standards for physical, ethical, and moral conduct for our company and we expect the same from our vendor-partners. All-Coast supports the balanced and prudent use of natural resources, one that yields social, economic and environmental value for all people. All-Coast supports those suppliers who use sustainable forest management practices and execute sound environmental stewardship. All-Coast commends and supports those vendor-partners who seek to certify their forest practices and products. All-Coast recognizes the variety of different, credible sustainable forestry management systems and policies existing today. All-Coast recognizes the diligence practiced by its vendor-partners to adhere to the strictest forest practice regulations in the world. All-Coast is confident that the current forest practice regulations, environmental stewardship, and sustainable forest practices being applied by its vendor-partners today will yield long-term social, economic, and environmental value. All-Coast Forest Products is FSC Chain of Custody Certified.
